

Solder Board-Component View 5	 A photograph of a blue printed circuit board (PCB) component, labeled 'LCD17-V1.1' and '2022.08.11', placed on a blue textured surface. The component is rectangular with various electronic components, including a microcontroller, capacitors, and a connector. It is positioned next to a metal ruler for scale. The ruler shows centimeters (1 to 11) and millimeters (0.5 mm to 9 mm).
Solder Board-Component View 6	 A photograph of the same blue PCB component from a different angle, showing the back side. It is placed on the same blue textured surface next to the same metal ruler for scale. The ruler shows centimeters (1 to 11) and millimeters (0.5 mm to 10 mm).

Solder Board-Component View 7	 A photograph of a small green printed circuit board (PCB) component, labeled 'A133-POWER_V1.3', placed on a blue textured surface. The component is positioned between two metal rulers for scale. The vertical ruler on the left shows centimeters from 1 to 11, and the horizontal ruler at the bottom shows millimeters from 1 to 12. The component features several surface-mounted components, including a black integrated circuit (IC) and several resistors.
Solder Board-Component View 8	 A photograph of the same green PCB component from a different angle, showing the underside. It is placed on the same blue textured surface with the same metal rulers for scale. The component shows various solder joints, components, and labels such as 'A133-POWER_V1.3', 'RCX 2x23', and '2024.06.03'.

Solder Board-Component View 9	 A photograph of a green printed circuit board (PCB) component, labeled 'A133_Button_v1.2', '2024V4.02', and 'RCX2-22'. The component is positioned horizontally on a blue textured surface. It is flanked by two metal rulers for scale: a vertical ruler on the left showing centimeters (0 to 12) and millimeters (0.5 to 1), and a horizontal ruler below showing millimeters (0 to 14). The component has several small electronic components and solder joints visible on its surface.
Solder Board-Component View 10	 A photograph of the same green PCB component from a different perspective, showing its underside. It is positioned horizontally on a blue textured surface. It is flanked by two metal rulers for scale: a vertical ruler on the left showing centimeters (0 to 12) and millimeters (0.5 to 1), and a horizontal ruler below showing millimeters (0 to 14). The underside of the component shows solder joints and the reverse side of the components.

Solder Board-Component View 11	 A photograph of a small green printed circuit board (PCB) component, labeled 'RCX 2425' and 'A133_serail_V1.1', placed on a blue textured surface. The component is positioned next to a metal ruler for scale. The ruler shows centimeters from 1 to 11 and millimeters from 1 to 10. The component is approximately 4 cm long and 1 cm wide.
Solder Board-Component View 12	 A photograph of the same green PCB component from a different angle, showing its underside. It is placed on the same blue textured surface next to the same metal ruler for scale. The component is approximately 4 cm long and 1 cm wide.
