

# GX810

## Operation Guide

### 1.Specification Description:

The keyboard adopts Bluetooth/2.4G standard - two working modes and is connected to related devices for operation. The product can run on computer systems such as Win7, Win8, Win10, Win11, MAC OS, etc. in 2.4G mode. Bluetooth mode can run on mobile phones or computer systems with Bluetooth versions.

### 2.Hardware requirements

A mobile phone or computer with Bluetooth 5.0 standard and a USB port available for connecting devices.

### 3.Switch indication

### 4.Charging indication and sleep mechanism

7 indicator lights: NUMLOCK (green), CAPSLOCK (green), 2.4G indicator light (green), BT1 indicator light (blue), BT2 indicator light (blue), Low voltage indicator light (red), charging light (red)  
When the CAPS light and NUM light are in the on state and the button is released for 2 minutes, the CAPS light and NUM light will automatically turn off  
When the battery is at a low voltage of around 3.3V, the low voltage indicator light (red) will flash slowly once every 1 second to indicate  
3. When charging, the charging indicator light is always on, indicating that it is fully charged and off

### Sleep and Awakening

After releasing the button for 30 minutes, the keyboard enters sleep mode and can be awakened by pressing any key.

### 5.Product features

Dimensions: length 460MM \* width 190MM \* thickness 50MM; 6-key no charge; Monochrome backlight; 1500mAh battery; The keyboard and mouse share a common receiver;

### 6.Light setting monochrome backlight constant on mode

Five levels of backlight brightness (first level off ->second level ->third level ->fourth level ->fifth level), default to the third level, FN+PGUP backlight brightness plus FN+PGDN backlight brightness minus FN+SCRLK switch backlight  
The default backlight on the keyboard is always on when powered on. If there is no action on the button, the backlight will turn off after 2 minutes. When the battery is low, the backlight will automatically turn off.

### 7.Button composite function combination button

| Combination buttons | function      | Combination buttons | function      |
|---------------------|---------------|---------------------|---------------|
| FN+F1               | player        | FN+F10              | Home page     |
| FN+F2               | Vol -         | FN+F11              | Keyboard lock |
| FN+F3               | Vol +         | FN+F12              | calculator    |
| FN+F4               | Mute          |                     |               |
| FN+F5               | Stop          |                     |               |
| FN+F6               | Previous song |                     |               |
| FN+F7               | Play/Pause    |                     |               |
| FN+F8               | Next song     |                     |               |
| FN+F9               | Email         |                     |               |

### 8.Connection method:

Short press the FN+2 combination key to switch to Bluetooth 1 mode, long press the FN+2 combination key for 3 seconds to enter Bluetooth 1 mode for pairing. When pairing, the blue indicator light flashes quickly, and the pairing time is 2 minutes. The pairing is successful, and the indicator light stays on for 2 seconds. Short press the FN+3 combination key to switch to Bluetooth 2 mode, long press the FN+3 combination key for 3S, and Bluetooth 2 mode enters the pairing mode. When pairing, the blue indicator light flashes quickly, and the pairing time is 2 minutes. The pairing is successful, and the indicator light stays on for 2 seconds to indicate Bluetooth mode: Turn the power switch to the "ON" state, turn on the computer Bluetooth device pairing, and the keyboard can be used normally.

**FCC Caution:**  
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.  
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-- Reorient or relocate the receiving antenna.  
-- Increase the separation between the equipment and receiver.  
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-- Consult the dealer or an experienced radio/TV technician for help.  
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

### Quality assurance card

Thank you for purchasing the products of our EWEADN. Thank you very much! To ensure that you can use this product with peace of mind and better To protect your rights, our company strictly implements the joint information product department of the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China And the "Repair, Replacement, and Return of Microcomputer Products" jointly issued by the State Administration for Industry and Commerce On the basis of the Goods Liability Regulations, we implement after-sales service and hereby make the following commitments:

- Service validity period:**  
Effective from the date of purchase, the date recorded in this certificate shall prevail.
- Service content:**
  - From the date of purchase, any product malfunctions caused by poor electrical performance will be free of charge during the warranty period Perform repairs. (The specific maintenance matters shall be handled by the provincial representative or the former product headquarters in the region)
- Not within the scope of services:**
  - Those who have exceeded the effective service or free repair period.
  - Failure to use, maintain, or store according to the correct instructions, resulting in malfunction or damage.
