

### Product Specification:

### Function:

Model: AKD-YD63-2

Battery Capacity: 5000mAh (3.85 / 19.25Wh)

Product Size: 105\*66\*8.9mm

Net Weight: 117g

Color: Purple / Blue / Space Gray

Material: ABS plastic + aluminum alloy

USB-C/F Input Power: 5V=3A , 9V=2.22A(12V / 1.67A)

USB-C/F Output Power: 5V=3A , 9V=2.22A(12V / 1.67A)

USB-C/M Output Power: 5V=3A , 9V=2.22A(12V / 1.67A)

Lightning Output Power: 5V=3A , 9V=2A

Wireless Charging: 7.5W for iOS, 15W for Android

### Usage:

Package includes a USB-C to USB-C/Lightning port 2-in-1 charging cable, which can be used to charge USB-C Android phones and Apple phones.

#### 1.Wired Charging:

Use the USB-C end of the charging cable to connect to the magnetic mobile power, and the other end to connect to a USB-C or Lightning interface cell phone.

#### 2.Wireless charging (for iPhone 12~16 series):

This magnetic power supply supports MagSafe, It magnetically attaches directly to the back of your iPhone for wireless fast charging.

#### 3.Wireless charging (for iPhone 8~11 series and Android phones that support wireless charging)

Please use the magnetic metal ring inside the package to stick it on the back of the phone or the phone case, and the magnetic mobile power near the magnetic suction adsorption, you can realize wireless charging. (Note: Wearing too thick cell phone case may affect the wireless charging!)

If your iPhone already wears a MagSafe case, you don't need to use the magnetic ring.

### Note:

1.Do not throw, hit, disassemble or repair by yourself.

2.Avoid direct sunlight and high temperature environment.

3.If the case is too thick, it may affect wireless charging, please remove the case before charging.

4.If it is not used for a long time, please charge the mobile power regularly.

5.Prohibit the use of the battery after it has been immersed in water!

6.This product does not come with an adapter for sale, if consumers use the power adapter power supply, you should purchase the Matching use of CCC certification and meet the standard requirements of the power adapter.

### FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
