- Pattern classification
- Slide up and down to adjust the mode under the current category
- Slide adjustment speed

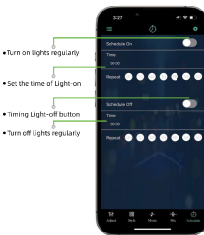

6. [Music] Music Light Mode

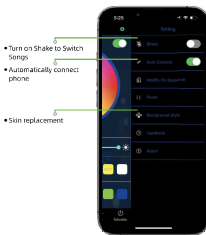

7. [Mic] Sound pickup mode

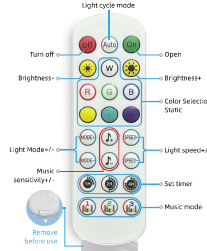

8. [Schedule] Timing mode

9. [Setting] Set up

10. Remote Control Description

FCC Warning Statement

Changes or modifications not expressly approved by the company responsible for compliance may void the user's warranty. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a power outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Notice to Users

This equipment must be installed to provide a separation distance of at least 20 cm from the nearest person. This equipment must not be used for operation in car and only in dry or indoor environments. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
