Change pairing, shutdown, charging:

1. Open the cover and take out the headset to automatically turn on, and it will automatically link to the last paired mobile phone
2. If you need to pair other mobile phones, please turn off the headset, and then take out the headset, and the Bluetooth headset is turned on. Other mobile phones can search for the headset and pair it
3. When the music is pausing, the headset is in a sleep state and the power consumption is very low

4. When the headset is not in use, put the headset into the charging box, the headset will automatically shut down and replenish the battery. If the phone is not equipped with a charging box, the phone will disconnect from the headset, the headset will automatically shut down after about 5 minutes

5. Failure and damage caused by force majeure, such as lightning, fire, flood, lightning, etc.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:
– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio/TV technician for help

Customer Hello!

Thank you for your patronage of our company's products. In order to ensure your interests, please read the manual and the following instructions carefully. The following conditions are not covered by the warranty. This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
