

DIZNIAT®

USER MANUAL

Specification

Model : YZ-005 Capacity : 9000mAh
Input AC : 100V~240V 50/60 Hz
Input type C1 : PD3.1 UFCS/ AFC/ FCP/ SCP
5V/3A 9V/3A 12V/2.5A 3.3~15V@5A 30W
Output Type C1 : PPS/PD3.1/UFCS/PE1.1/PE2.0/QC3+/QC3.0/
QC2.0/ AFC/ FCP/ SCP/ SFCP
5V/3A 9V/3A 12V/2.5A 3.3~15V@5A 30W
Output Type C2 : 5V/3A
Output Cable : UFCS/PE1.1/PE2.0/QC3+/QC3.0/QC2.0/ AFC/
FCP/ SCP/ SFCP
5V/3A 9V/3A 12V/2.5A 3.3~12V/4A 30W
Wireless : q2 15W(Max) 5W 7.5W 10W 15W

Using the adapters

1. Choose the adapter (UK/UE/AU/IN) you need based on the power outlet.
2. Attach the appropriate adapter to the charging base/US adapter.
3. Plug into the power outlet to recharge.

3. Plug into the power outlet to recharge.

Product Preview

1. Built-in typeC cable (lanyard)
2. Qi2 Wireless pad
3. Type C Port 2
4. Type C port 1
5. Power Button
6. US plug adapter
7. Power Display

Instructions for Use

1. Power Button and LED display
<> Press once to turn on and show the balance of the power.
<> Double-click to turn off.
<> When you place a device that supports Qi wireless charging in the wireless charging area, or when you connect your device using a cable, the Power Bank automatically turns on.
* Warm tip: If you are recharging for the power bank, please press once the button before you can use the power bank to charge your devices.
<> It automatically turns off in 30 seconds under no-load status.
2. Recharge
You have two ways to recharge the Power Bank.
<> Use the AC plug.—It may take 3h or longer.
<> Use a C to C cable with the Type C1 port.—It may take 1.5h or longer.

The LED digital power display blinks while charging it shows 100% after fully charged.

About FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction
