

User Manual for AccuProx™ Proximity Card Reading Module

Instruction for Use:

To use the AccuProx Proximity Card Reader present a HID ProxPoint compliant proximity card or fob to the location indicated on the exterior of the host device. The module will read the number data of the card and deliver it to the kiosk application running on the terminal.

For more information on format adjustments or decode processes, please refer to the terminal or application user guides.

For information on installation and integration of the module, please reference integration guide document 97-8006-00.

Compliance Declarations:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device complies with part 15 of the FCC rules and with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

- 1) *This device may not cause interference.*
- 2) *This device must accept any interference, including interference that may cause undesired operation of the device.*

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) *L'appareil ne doit pas produire de brouillage;*
- 2) *L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.*

Changes or modifications not expressly approved by Accu-Time Systems could void the user's authority to operate the equipment.
