Apple CarPlay (wired & wireless)

You can also control your iphone here.

- 1.Wired connection:** Just connect the USB data cable, and then it will automatically enter the Carplay interface.
- 2.Wireless connection :** first turn on the bluetooth and wifi functions of the mobile phone. and then connect the bluetooth.then it will automatically enter the Carplay interface.(Note:The signal is transmitted through wifi at this time. so even if the Bluetooth functios is turn off, it will be transmitted normally. when the wifi function is turned off, Carplay will be disconnected.)

COMMON PROBLEMS AND SIMPLE TROUBLESHOOTING

1) Car audio with BT but it can't work

- -Check the phone to see if you can search for the unit code

Operation steps: turn on the unit, use the phone BT search device.then click the Connection, after connecting. you can answer the phone or Bluetooth to play The song.

2) USB flash disk can not be played, the card slot does not enter the card?

-- USB flash disk can not play:

Format the USB flash disk, and the file system is selected as:FAT32.re-Download one or two songs and try again.if it still doesn't work, please Replace the USB flash drive.

-- the card slot does not enter the card:

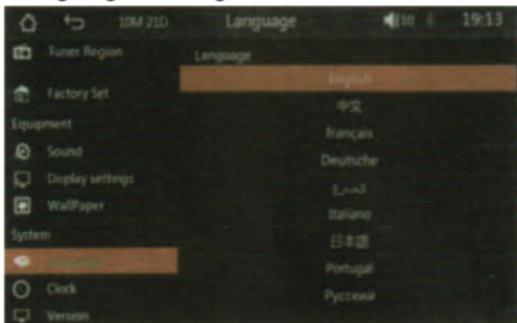

Check whether the memory card is inserted, the plug is broken.

3) There is no sound right after installation

The audio output of this machine is to broadcast the sound by transmitting FM Signal to the radio of the original car.So it is necessary to check whether the Original car radio receives the frequency of FM .

Mirrorlink (iphone)

When the device is plugged into the iphone, the content on the phone's screen is projected onto the car's screen, and the sound is transmitted in sync.

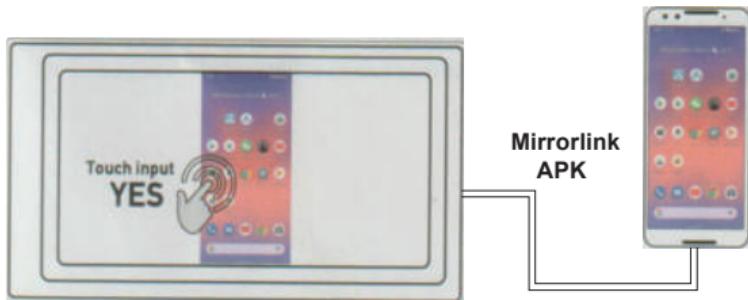

You can't control your iphone here.

Mirrorlink (Android)

When using an Android device, after connecting the USB data cable, you will be prompted to install the Mirrorlink software. After installation, plug the data cable again, it will enter the screen mirroring mode. And it can be operated on both the player screen and the phone screen.

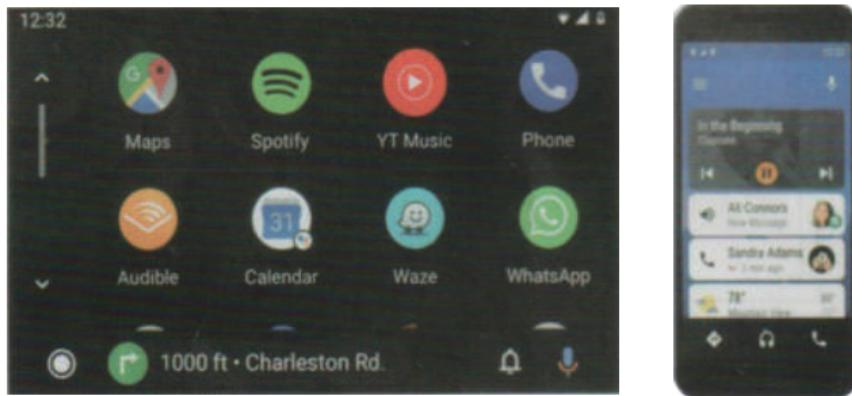

Only the image transfer is successful at this time. The sound can only be transmitted after the BT connection is successful.

You can also control your android iphone here.

Android Auto (wired & wireless)

This feature is not supported in all countries, and “Google Play” services need to be available locally.

You can also control your android iphone here.

- 1.Need to download and install “Android Auto” software in “Google Play”.
- 2.A mobile phone with Android 6.0 or higher must be used. Must use a valid data cable connection.
- 3.**Wired connection:**Just connect the USB data cable, and then it will automatically enter the Android Auto interface.
- 4.**Wireless connection :** Frist turn on the Bluetooth functions of the mobile phone, and then connect the Bluetooth. Then it will automatically enter the Android Auto interface.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
