Operation

Charging Your Speaker

1. Use the power cable to connect the charger and speaker for charging.

2. The orange power LED will turn on to indicate that the unit is charging. Then will turn to green when fully charged.

Note: A full charge takes approximately 3-4 hours.

Power On / Power Off

Power on: Press and hold the ⌈ ⌋ button for 2 seconds to power on the speaker.
The working state LED will flash.

Power off: Press and hold the ⌈ ⌋ button for 2 seconds to power off the speaker.
The working state LED will turn off.

Pairing Bluetooth Devices with Your Speaker

After the speaker is turned on, the working indicator light flashes blue, then turn on the mobile phone Bluetooth, search for a device named P15, click on the device to connect, and the working indicator light is always blue. After the next boot, the speaker will automatically connect back to the mobile phone. Of course, the Bluetooth of the mobile phone needs to be turned on.

Bluetooth Music Play/Pause

1. Open the music player and select a song to play Press the ⌈ ⌋ button to pause / play the music.
2. Click the + button to increase the volume or long press to skip to the next song.
3. Click the - button to decrease the volume or long press to skip to the previous song.

Phone Calls

1. Click the ⌈ ⌋ button to answer an in coming call. Click again to end the call.
2. Double click the ⌈ ⌋ button to reject the call when the call is coming.

T-W-S Function

You can purchase two speakers to connect them together and enjoy the True Wireless Stereo sound.
1. After the two speakers are turned on, connect one of them to the Bluetooth of the mobile phone, and do not connect the other to any device, then short press the ⌈ ⌋ buttons of the two speakers in sequence, the working indicator will flash blue and white alternately, and the working indicator will stop alternating flashing after the pairing. The one that is always on in blue is the left channel speaker, and the one that is always on in white is the right channel speaker. After the next reboot, the two speakers will automatically connect back to TWS mode.

2. Clear connection: Press and hold the key ⌈ ⌋ for 2 seconds to clear and disconnect the Bluetooth and TWS connection, the speaker enters the waiting state for pairing, and the working indicator light flashes blue.

Colorful light adjustable & Turn off

The passive radiator on the top of the speaker has colorful dazzling lighting effect, you can double-click the button ⌈ ⌋ to switch the display effect or turn off the lighting effect.

Energy saving

When the speaker is suspended for more than 20 minutes, it will automatically shut down to save power except for charging.

Storage time

When fully charged and not in use, it can be stored for up to 1 year. It is recommended to charge once every 3 months.

FCC Caution：

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
