1. What should I do if the speaker cannot pair with my device and play music accordingly? Please check the specification /the manual of the device(your mobile or computer),and see if the device is BT enabled.
2. What should I do if the TF card can not work?
 - Ensure that the TF card is in good condition. Also check that the audio files are in correct formats.
 - The problem may also occur due to incompatibility of the TF card. We recommend you format the TF card to FAT 32 formats.
3. I'm using FM mode but the speaker cannot receive any radio channel. How can I improve the speaker's FM signal strength? Make sure you're using the speaker in a place covered by FM signals. Please connect the AUX cable with the speaker, it acts as an external antenna to enhance the FM Radio signal. You can adjust the speaker in different positions and directions to get better signal.

General Maintenance

To avoid damage or failure:

- It is strictly prohibited to expose the speaker in the places with high temperature, e.g. places near heating device or car with direct sunlight.
- It is strictly prohibited to dip the speaker into water.
- It is strictly prohibited to use the cleanser including alcohol, ammonia, benzene or abrasive. If needed, please clean it with a piece of wet soft cloth.

Operating and storage temperature:

- It is strictly prohibited to operate and store the speaker in the places with temperature lower than -25°C or higher than 55°C . Low temperature will shorten the lifespan of battery.

Technical Specifications

Model NO.	HLV-1
Signal to Noise Ratio	>80dB
Speaker Unit	ϕ105mm ,4Ω 25W*1 +ϕ40mm ,4Ω 8W*1
Battery	4800mAh
Play time	8hrs
Charging time	3-4hrs
Operating distance	>10M
Functions	Support wireless, LINE IN, TF card, USB, FM Radio, hands free,Karaoke,EQ,RGB LED
Materials	ABS+Net cloth+iron net
Speaker Dimensions	258*138*227mm
Speaker Weight	1.87kg
Microphones Dimensions	173.5*50*50mm
Microphones Weight	118g

WARNING

- 1.The working voltage is 5V(tolerance is+0.2V). Misuse of this could cause a fire hazard and other safety risks. No liability or responsibility is Accepted by us for the usage of exceeding this voltage range(eg. the working voltage for fast charging is 5V).
- 2.Dis-assembly ONLY by the professionals.
- 3.Stay away from the fire.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
