Setup Photos

For BTEK240606004AE

Conducted Emissions	 A photograph showing a wooden table on the left with a black device on top. A white power adapter is connected to the device and sits on the table. A blue metal frame with a white grid pattern is on the floor to the right, connected to the device by a cable. A red and white cylindrical object is mounted on the wall in the background.
Radiated Spurious Emissions (Below 30MHz)	 A photograph of an anechoic chamber. The floor is white and reflective. In the center, there is a small black device on a white circular platform. A tripod-mounted antenna is positioned above the device. The walls of the chamber are covered in white absorptive panels with a grid pattern. The BTEK logo and text '邦泰检测' are visible on the wall.
Radiated Spurious Emissions (Below 1GHz)	 A photograph of an anechoic chamber, similar to the one above. The floor is white and reflective. In the center, there is a small black device on a white circular platform. A tripod-mounted antenna is positioned above the device. The walls of the chamber are covered in white absorptive panels with a grid pattern. The BTEK logo and text '邦泰检测' are visible on the wall.
