To connect your phone or other device via Bluetooth, search for the speaker's Bluetooth name "NT-002" and connect to it.</p><p>2.The speaker automatically switches to different modes based on the type of insertion:</p><ul style="list-style-type: none">• Insert a TF card to activate TF mode.• Insert a USB flash drive to activate USB mode.• Connect a 3.5mm audio cable to activate AUX mode.<p>3. If both a TF card and USB flash drive are inserted, you can press the MODE button to cycle through the available modes.</p></div> <div data-bbox="3048 898 3089 916">- 5 -</div>	<div data-bbox="3388 160 3575 189"><div>Product Parameters</div></div> <div data-bbox="3388 192 3692 373"><p>Model: NT-002 Power Output: RMS 4Q (20W) with THD=10% Frequency Range: 100Hz - 18kHz loudspeaker Loudspeaker: 5.5" Signal-to-Noise Ratio: ≥90dB Lithium Battery: 7.4V / 3000mAh Shell Material: Plastic Color Box Size: 290mm x 200mm x 420mm</p></div> <div data-bbox="3768 809 3885 827">MADE IN CHINA</div> <div data-bbox="3634 898 3675 916">- 6 -</div>	<div data-bbox="3985 181 4119 210"><div>FCC Warning</div></div> <div data-bbox="3985 213 4547 657"><p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p><p>NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p><ul style="list-style-type: none">- Reorient or relocate the receiving antenna.- Increase the separation between the equipment and receiver.- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.- Consult the dealer or an experienced radio/TV technician for help.<p>NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p><p>The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</p></div> <div data-bbox="4219 898 4260 916">- 7 -</div>
