Earphone wearing instructions

(3) note

1. Please store and use this product in a room temperature environment;
2. Do not expose this product to rain or damp environments;
3. Do not throw to avoid product damage caused by falling;
4. Do not disassemble, repair, or modify this product on your own;
5. Do not use chemical solvents to wipe this product;
6. Please do not dispose of it randomly, or keep it in high temperatures (above 60 degrees Celsius) and fire to avoid causing danger
7. Stay away from WIFI, routers, and other high-frequency transmitting devices, as this can affect the signal reception of the device and cause sound jamming and disconnection;
8. Please use this product in an effective environment (10 meters), and there should be no physical obstruction (such as walls) between the Bluetooth device and the headphones

(4) Exception handling

1. When the user's abnormal operation causes the headset to only connect to a single headset or the Bluetooth name cannot be searched. Please put both earphones back into the charging case at the same time to activate, then turn on the Bluetooth of the phone and delete the phone. After entering the pairing record of "G10", take out both earphones at the same time, and wait until the left and right earphones are automatically paired. When the blue light flashes successfully, turn on the mobile phone's Bluetooth search connection again until success.
2. If music is still playing in the background when you answer a call, please enter the music player settings. Go to the settings menu, find the playback settings, and turn off the "Allow simultaneous playback with other applications" switch.

Bad phenomenon

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC 's RF Exposure guidelines, The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
