

TRIBONE

Wireless Charger
QUICK START GUIDE

Specifications

Input	DC 5V/3A, DC 9V/2.22A, DC 12V/1.67A
Output	Output 1: Phone 5W/7.5W/10W/15W (Max); Output 2: TWS 5W (Max); Output 3: Watch 3W (Max)

- This wireless charger is not compatible with non-MagSafe phone cases, such as Otterbox Defender cases.
- Connect the wireless charger to a Quick Charge 2.0/3.0 or Power Delivery wall adapter. Do not connect to a 5V/1A wall charger or a USB port on a computer as it may affect the wireless charging function.
- Do not place any foreign objects between your device and the wireless charger's surface, including metal pads on a car mount, magnetic cards, door keys, coins, NFC cards or other metal objects, as they could potentially demagnetize the wireless charger, affect the charging speed, or cause overheating.
- Wireless charging products make charging more convenient than wired chargers, but confined by current wireless technology, their charging speed is slower than that of wired chargers.
- High temperatures will reduce charging speed and restrict power. It is recommended that you charge your device in environments with temperatures below 40°C / 104°F.

Important Safety Instructions

- Please refer to the electrical and safety information on the bottom before installing or operating the product.

- The maximum ambient temperature during use of this product must not exceed 40°C.

	Indoor use only
	This symbol indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

Federal Communications Commission Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
