8. Short press to increase the volume. Press the next song long.
9. Press "M" to switch lighting mode. Long-press to switch between AUX mode and Bluetooth mode

### How to Use the Bluetooth Mode

- A. Turn on the power, the speaker will enter the bluetooth mode automatically. while not connected to An AUX port
- B. Open the bluetooth device, then search and find the bluetooth name "Kraylay".  
Pairing code is "0000" if it If Needed .
- C. After pairing successfully, your Bluetooth device will connect automatically the next time you use the device.

### Common problems and solutions:

1. The speaker may turn off automatically because of the low battery power. If you use it for a long time. Plug the device in with a compatible USB charging cord to continue charging or to continue playing.
2. The music will freeze if the speaker is beyond the effective bluetooth connection distance or there is an obstacle between the speaker and the Bluetooth device.
3. Unsuccessful pairing:
  - a. Check the speaker is turned on.
  - b. Make sure the speaker is within the bluetooth connection distance.
  - c. There are too many Bluetooth devices surround- ing, which makes the bluetooth searching difficult. Turn off other Bluetooth devices.

### Attention:

1. Please place and use this product in normal temperature environment.
2. Do not expose this product to rain or humidity. 3. Avoid damaging the speaker by falling.
4. Do not disassemble, repair or modify this product by yourself.
5. The product has a built-in lithium battery. Do not throw it away. Don't place it in fire to avoid danger!

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
