### 3 Technical Information

Working Voltage	3.7-4.2V
Charging Power	DC5V±0.25V
Bluetooth Version	Bluetooth 5.0
Recharge Method	USB-C
Battery Capacity	1000mA
Rated Power	0.99dBm
Bluetooth Range	Barrier Free Space: ≥32 Obstacle Space: ≥16 feet
Tumbler Material	Double Wall Stainless Steel
Product Size	3.46"x 2.72" x 8.26"
Tumbler Capacity	20 oz. capacity when filled to rim, 18 oz. capacity with lid on
Product Weight	398 g
FCC ID	FC 2BGM2-SP01

### 7 Tumbler Cleaning Instructions

- To clean the tumbler, first remove the speaker at the bottom of the tumbler by twisting and unscrewing the speaker from the body. This will avoid damage to the speaker while cleaning. Clean the speaker bottom separately by wiping with a damp cloth.
- Hand wash tumbler recommended.
- Use non-abrasive cleaner.
- Not intended for use in freezer or microwave.
- Caution when handling hot liquids.
- We do not recommend submerging the speaker.

## FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
