

# Smart Bird Feeder Operation Guide

## Appearance of the device

Install or remove the Micro SD card, please turn off the device power before proceeding. It is recommended to use cloud storage, alarm recording cloud storage, real-time push alarm short video, safe and reliable.

- Power key: long press for 3-4 seconds to turn on/off the device, you will hear a tone
- The blue light is always on: the device has been awakened and is working normally
- Blue light flashes quickly: waiting for network configuration
- Reset button: long press for 5-10 seconds to restore the device to factory settings
- Slow flashing blue light: The device is being accessed by the client
- Light off: the device is in low-power standby/not started

## Quick configuration

### Step 1 Download APP

Tips one: Scan QR code.

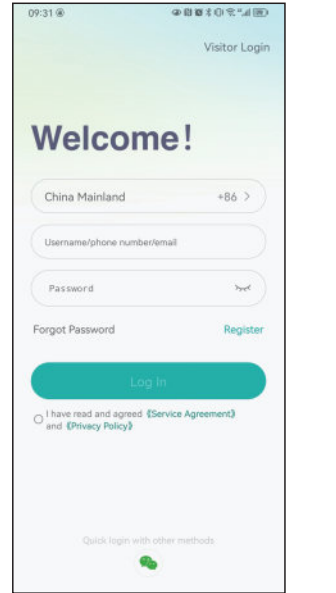

Tips two: Search "iCSee" in the App store or Google play to download.

Note:  
If you need local storage, please install the TF card firstly, then power on the device (the TF card does not support hot swapping, please plug and unplug the TF card when the camera is powered off). Cloud storage is recommended, which is safe and convenient. Details See "Step 4" for operation.

### Step 3 Configure the network of the camera

1. Connect your phone to Wi-Fi network and turn on Bluetooth.
2. Open the iCSee app, register an account and login (Figure 1).

Figure 1

### Step 4 Cloud Storage

3. After successful login, click the "+" button (Figure 2).
4. Wait for the device to be added to be found, and click "OK" (Figure 3).

Figure 2

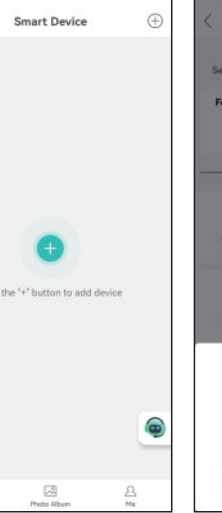

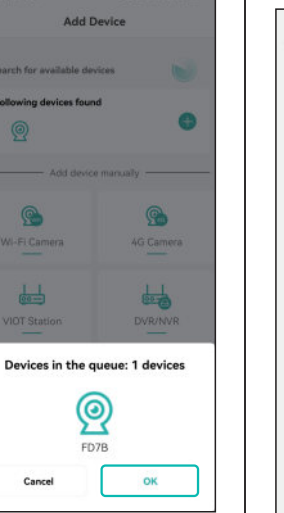

Figure 3

### Step 5 Network Configuration

5. Enter the Wi-Fi password and click "OK" (Figure 4).
6. Wait for the camera network configuration, when the camera issues a "connect successfully" voice prompt, indicating that the network configuration is successful (Figure 5).

Figure 4

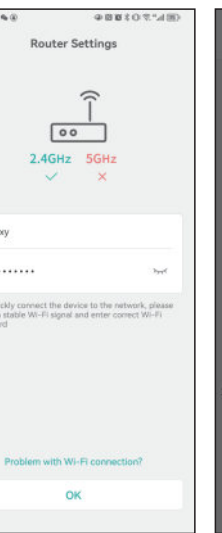

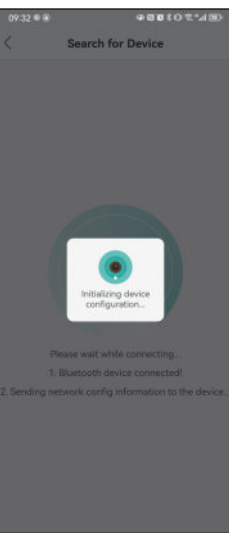

Figure 5

### Step 6 Cloud Storage

7. After the network configuration is successful, set the camera name (Figure 6).
8. After the configuration is completed, the device is displayed in [Smart Device]. Click to open the real-time preview screen, and do some settings as you want (Figure 7).

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
