How to Add Fingerprint

To add a fingerprint, place a finger on the fingerprint recognition area several times.

Add

Cancel   Save

Add Code
Save the code immediately. It is not displayed in the app.

Please enter a 8-10 digit password

Enter   Random

Code Name   Optional

How to Add Card

Place the card on the recognition area shown in the figure. Remove the card when prompted. If the card is not added in 30 seconds, the card fails to be added.

Add

6. Temporary Code

Smart lock can assign temporary permissions to meet a user's diversified demands in daily life, social activities, and business management. It supports the creation of temporary passwords.

Dynamic：
Validity period: 5 minutes
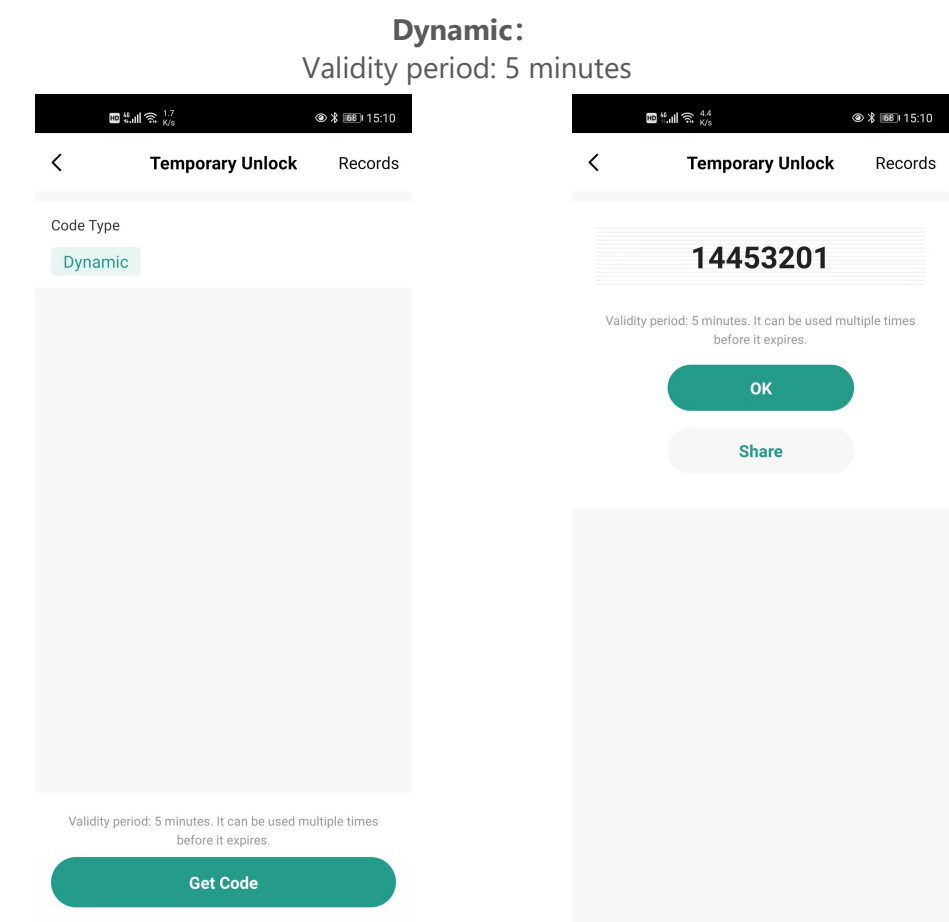

7. Device Log

As a housekeeper, the smart lock can inform a user of everything that is happening at the door. An alarm is triggered if there is any anomaly. For example, when someone enters the wrong password too many times, picks the lock, or the battery is low.

Entry：
The bell icon

Log：
alarm, operation, bulletin
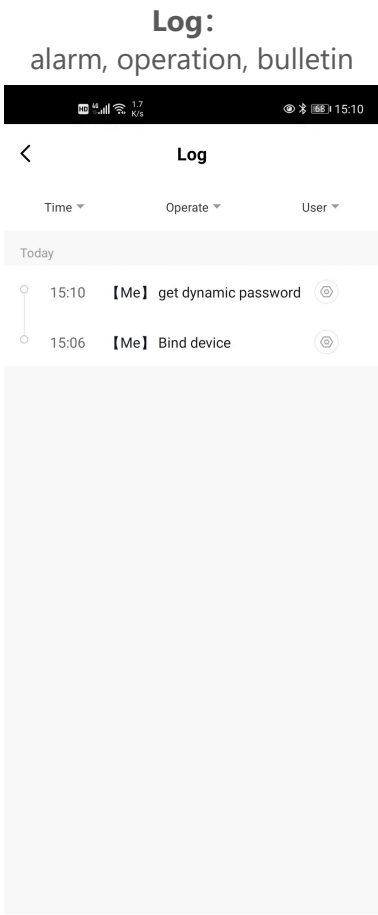

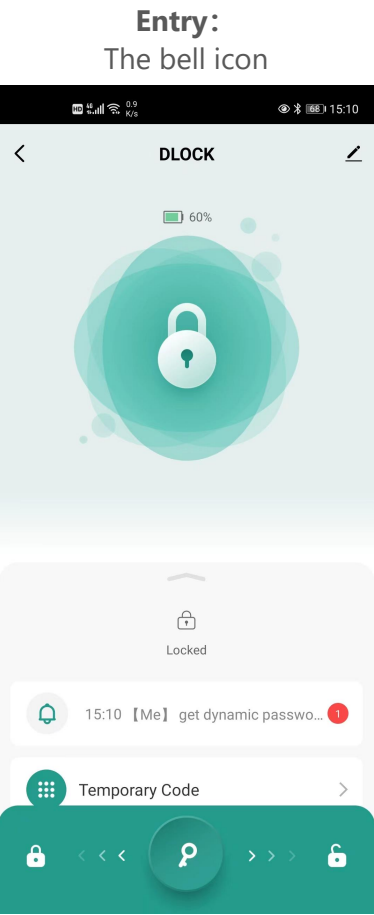

8. Home Management

Share smart home access with family members and establish member-specific access permissions.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
