7. RGB light color light mode adjustments.

8. TF card Interface

9. Type-c charging interface

10. USB interface

11. Aux connector

Technical Specifications:

Transmission distance :10 meters

Wireless standard:5.2

Output power:30W

Play time:5-6H

Frequencyeffect: 60Hz~18KHz

Speaker: 57 mm, 4Ω 2 1 5x2

Input Power: 5V==500mA

Maximum current consumption: 2.8A

Batterytype: 18650 Li-ion 1800mAh

Directions for use:

1. Device to connect

- 1.1 Turn on the device to default wireless mode.
- 1.2 Turn on wireless device, search model SPK-AUZ8-BLK and connect, play music after connection successfully.

2. Suitable for all kinds of mobile phones equipped with wireless technology, wireless adapter, wireless players.

3. Voice prompt

- 3.1. there is a voice prompt when turn on/off.
- 3.2. Low Power 3.4V, voice signal 15S shutdown; no charge state.

4. Mode switching

Wireless mode-USB mode- TF mode- FM mode- AUX mode

5. LED light Press Key 5 to switch the light mode

6. volume

the default volume of speaker is 70% when starting up.

7. Charging to use

The machine built overcharge protection circuit, can be connected to a computer or charger for a long time, about four hours to fully charge. Every battery playback time will be different due to the use of different size of the volume.

Features:

1. Wireless connection
2. Support U disk/TF card/ AUX play mode
3. Built-in lithium battery
4. Hands-free function
5. Use high fidelity speakers, make the sound more natural and delicate
6. With RGB dazzle dish lamp

FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
