## Repair guide and troubleshooting

Before the machine needs to be repaired, please check the following answers to find the possible cause of the problem you have encountered. Some simple checks or minimal adjustments you have made may solve the problem and restore the normal operation. If you have questions about some inspection points or cannot solve the problem, please refer to the professional maintenance personnel for repair.

The problem	The solution
iphone/ipod cannot play	iphone/ipod version is too low, please play it manually.
It doesn't play in Android mode	Please confirm whether the phone supports OTG function, or the Android version of the phone is too low, please confirm whether the Android version is above 4.3.
No sound	The volume is set too low or the speaker is not properly connected. If there is still no sound after ensuring correct operation, you need to replace the horn.
Failure to turn on	The power supply is not plugged in properly. If it is confirmed that the power supply is faulty, replace the switching power supply. If there is no problem with the power supply, there may be a problem with the control box.
The machine is not responding	Please power off and try again. Check whether the iphone/ipod/Android phone/ USB is properly connected.
The key doesn't work	Please don't press hard. Please check whether there is foreign body or water, please restart the machine.
Bluetooth cannot be paired	Please turn off all other Bluetooth devices that have been paired, restart the machine and device and search. Please ensure that the stereo is located within 10 meters of the mobile phone and there are no obstacles to use.

#### FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
