User Manual

WindMaster Smart Tower Fan Pro

TF-02

1. Important Safety Instructions

Read and save these safety instructions before use.

General Safety

1. Please strictly follow the instructions in this user manual when using the product to avoid accidents such as fire, electric shock, or personal injury.
2. This product is suitable for individuals aged 12 and above. Children or individuals with sensory impairments or intellectual disabilities must be supervised by guardians when using this product.
3. The product is intended for indoor ventilation and should be placed on a flat floor. Do not use it outdoors or to discharge hazardous and explosive substances and vapors.

Operation Safety

1. For your safety, make sure your hands are dry when using this product.
2. Do not cover or insert any foreign objects into the air inlet or the air outlet, as it may damage the product, resulting in electric shock, or fire.
3. To reduce the risk of fire or electric shock, do not use the product with any solid-state speed control device.

Electricity Safety

1. The input voltage of the product is 120V AC, 60Hz. Make sure that the voltage meets the requirements before use.
2. If the product is damaged or malfunctions during operation, please contact customer service or a qualified electrician for repair or replacement. Do not attempt to repair or replace the product yourself.
3. Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
4. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

7. Cleaning & Maintenance

7.1 Tower Fan Malfunction Instructions

Note: After cleaning, allow the air inlet grille and fan blade to dry completely. Then, follow the reverse steps of the mentioned process to reinstall them, ensuring they are properly installed before resuming the use of the tower fan.

7.2 Contact Us

a. Download the **Prodigy** app from App Store (iOS device) or Google Play (Android device).

b. Register your account via email. After registration is completed, enter "Home", and select "Add device" - "Home Appliance" - "WindMaster Smart Tower Fan Pro TF-02".

c. Follow the on-screen instructions to add the tower fan.

This equipment generates user-defined radio frequency energy, if not installed and used in accordance with the instructions, any use can cause harmful interference. If this equipment does not cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with a minimum 20cm distance between the radiator and your body. Use only the supplied antenna.

8. App Download Instructions

At first, we value your experience. If you have any questions about our product, please contact us through our service. Our dedicated team will respond promptly to provide you with the support you need. Thank you for choosing Prodigy, we look forward to serving you.

9. Troubleshooting

9.1 Note

9.1.1 Fan speed

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

9.1.2 Timer duration

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

9.1.3 Indoor temperature

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

9.1.4 Auto mode

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

9.1.5 Sleep mode

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

9.1.6 Air Inlet Grille

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

9.1.7 Blade

Caution: Before performing any cleaning and maintenance, please turn off the fan and unplug it.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
