

(4)

Each motor can be connected to the camera for run/stop. The motor may be directly linked to a camera that provides both power and Run/Stop capabilities.

For example:

ARRI XT-RS Port

Tilta Alexa Mini Battery Plate - 14.8V 3-Pin R/S Port

Tilta Red DSMC2 Battery Plate - 14.8V 3-Pin R/S Port

For example:

For cameras without integrated R/S and power outputs, separate connections for power and R/S are required.

(5)

7-Pin to 7-Pin Connection Cable

P-Tap to 7-Pin Power Cable

NOTE: Select either the 30cm straight or 50cm straight 7-7 PIN motor cable based on the motor's position.

7-Pin to 7-Pin Connection Cable

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

- (1) Cet appareil ne doit pas provoquer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

The device can be used in distance 0mm between the radiator & your body without restriction. L'appareil peut être utilisé dans la distance 0mm entre le radiateur et votre corps sans restriction.
