## BASIC PARAMETERS

### TECHNICAL PARAMETER

Extensible	32G
Bluetooth version	Bluetooth 5.0 (the Bluetooth distance is 15m and supports TWS connection)
Support software	Multiple Karaoke software
Mode of use	Key + Bluetooth (supports Bluetooth 5.0)
Support mode	Bluetooth / TF Card
Support sound effects	Voice, host, fast song, slow song, MAC sound
Playback content format	Mp3 audio format
horn	Diameter 45mm impedance 4 $\Omega$ Power 5W
Mi tou	Capacitance mi
Shell	ABS environmental protection plastic
USB data transmission	I won't support it
DC charger input	DC 5V 1A
data line	Micro 5V 1A

#### FCC Warning Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
