

2BH5BKRF-WIN-SENSOR

About WINDOW SENSOR:

When the smart window sensor detects that the window is opened, the thermostat will automatically adjust the air conditioner to air supply mode to avoid wasting energy.

This wireless alarm is of high quality and small size, suitable for most doors and windows (sliding/crank/hanging...doors and windows), cabinets and drawers...

EASY TO INSTALL: Simply peel and stick the sensor to any window or glass, double sided tape included! No wiring required! No screws required!

Insert a flat-blade screwdriver into the groove, open the machine, and replace the battery.

Press and hold "RF Connect" for 5 seconds enter pairing mode.
