Subject: Software Radio Status

To Whom It May Concern:

Per the application from HidrateSmart LLC requesting the certification of the BLE Sensor-007 and BLE Sensor-008 for Industry Canada under the Radio Certification Program (IC IDs: 25893-007 and 25893-008) this letter is to confirm that these devices are **not** software defined radios, as outlined in defined in **KDB442812**. Under no circumstances is the end-user able to adjust the RF output power of either device.

If you have any questions or need any additional information, please let me know.

Sincerely,

By:
