

## **Product Description:**

This wireless headphone is a high-quality stereo ANC headphone that possesses wireless music and calling functions. Beautifully designed with a vogue appearance, it is easy to carry and suitable for household, outdoor travel, and other places to enjoy music anytime and anywhere. It provides super-perfect sound quality for your computer, digital music players, mobile phones, and other supported devices.

## **Function Features:**

[ANC] The Active Noise Canceling function isolates noise from the outside world to enjoy more pure music.

[Wireless Play] Supports pairing wireless devices to play music, such as mobile phones, tablets, or TVs.

[Hands-free calls] Supports hands-free call functions with built-in highly sensitive microphones, making phone calls carefree and enjoyable.

[Voice Prompt Coming Calls] It will prompt the phone number when you have a call, providing convenience.

[IOS Battery Display] The IOS mobile phone displays the earphone battery in real time.

[Function of Multi Pairing] Supports connecting two mobile phones.

[Game mode] Supports low-latency mode, giving a more immersive gaming experience.

[SIRI] Supports intelligent voice assistant operations.

[Smart Power-off] If not connected in wireless mode, the headphones will turn off automatically after 5 minutes to conserve electricity.

[Audio Input] Stereo audio input ports are easy to connect to the computer, digital music player, mobile phone, and other audio sources.

[Rechargeable Lithium Electricity] The built-in rechargeable lithium battery is environmentally friendly, economical, and practical.

[Intelligent Charging] The voice prompt asks for a charge when the battery is low. When the charging is complete, it will automatically cut off power to avoid overcharging and damaging the battery.

[Type-C Charging Ports] The power input jack can use the special charging cable from the standard package or the mobile phone's universal Type-C port charging cable.

[Audio Input] Use the audio cable to connect to the digital music player, mobile phone, and other audio sources.

#### **Wireless Pairing Operation Method for the First Time:**

Press and hold the power button for 3 seconds until the red and blue LED lights flash alternately. Search the earphone pairing name "Champions" on your phone, then click the pairing name separately on your mobile phone. When you hear "Device connected," the pairing is successful. The indicator light is blue. It will reconnect automatically next time it is used.

#### **Operation method of multi-pairing:**

Search the earphone pairing name "Champions" on mobile phone A and B simultaneously, and then click the pairing name on the mobile phones separately. When you hear "Device connected," the pairing is successful. If you want to listen to music on mobile phone B while listening to music on mobile phone A, you should manually pause the music on mobile phone A and click the music on mobile phone B to listen to music and control mobile phone B.

#### **Method of turning to an ordinary headphone:**

Insert the 3.5mm audio line jack into the audio input ports, and the wireless headphones will automatically power off.

**Method of charging:**

Insert the end of the charging cable into the native Type-C socket, and the other end of the USB plug into the mobile phone charger; the indicator light turns red when charging, and the red light will extinguish when full.

**Low battery:**

When there is a low voltage power, the machine will prompt "Battery low", please recharge in time. If it is not to be used for a long time, charging it at least once a month can protect the battery and extend battery life.

**Auto power off:**

If not connected in wireless mode, it will turn off automatically after 5 minutes to conserve electricity.

**Reset:**

When the headphones suddenly crash, long-press the power button for 20 seconds; the headphones will boot again and return to normal.

**FCC Caution :**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
