Title. Guidance on Product Shipment with External Antennas (IPEX Type)

– NOTE –

We hope this message finds you well.

This letter is to share information regarding the configuration of our upcoming product shipments featuring ‘IPEX connectors’.

To enhance initial usability and streamline integration during testing or deployment, these products will be provided with external antennas included and pre-attached as part of the standard configuration.

We understand that design requirements may vary across different applications. As such, this configuration has been prepared to support a wide range of use cases, while allowing room for adjustment depending on specific implementation needs.

We are confident that this approach will offer flexibility and convenience for both development and deployment phases. Should you have any specific requests or need alternative configurations, we will be happy to accommodate them where possible.

Please don't hesitate to reach out for further technical details or documentation.

26. Mar. 2025

Sincerely,

(CEO) Kwanhyeong, Lee (Bruce)
