

label declaration letter.

The label and warning words of the product are in the E-label, which can be seen by users through simple operations on the APP, without networking and password. Users cannot change regulatory information, and any firmware or software update will not remove or change the label information. A physical temporary label on the packaging. To find the FCC ID, FCC statement, ISED Number, ISED statement and E-label, open the Nuki App, tap the menu icon, and select "Legal Information".
