

Test Mode IEEE 802.11be(EHT20)_Ant_1

Test Mode IEEE 802.11be(EHT20)_Ant_2

The figure consists of three side-by-side plots, each representing a different frequency channel: 5965MHz, 6165MHz, and 6405MHz. Each plot shows a flat line at 0 dBm across the frequency range, indicating no signal is present. The plots are labeled 'Trace 1 Pass' and 'Auto Tune'. The x-axis represents frequency in MHz, and the y-axis represents power in dBm. The plots are titled '5965MHz', '6165MHz', and '6405MHz' respectively.
