2 Install Driver

For models with a CD

- Insert the CD and run the **Autorun.exe** to install driver.
- Once finished, restart your computer.

For models without a CD

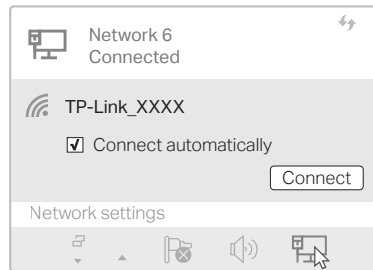

- Go to **My Computer** or **This PC**.
- Double click the **TP-Link disk/TP-Link CD Drive** then run **SetupInstall.exe** to install driver.
- Once finished, restart your computer.

Note:

- If you cannot find the setup program, please download the driver at www.tp-link.com/support.
- If an unknown publisher message pops up, select **Yes** to continue.
- If Windows User Account Control requires admin credentials, type user name and password of your Windows administrator account.

3 Join a Wireless Network

- Click the network icon on the taskbar (the icon might look like one of these: , , , or ).
- Select your Wi-Fi network, click **Connect** and enter the password when prompted.

Troubleshooting
