

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Radiation Emission Test
Setup (Below 30MHz)**

**Radiation Emission
Test Setup (30MHz to 1GHz)**

Radiation Emission Test Setup (1GHz to18GHz)	 A photograph of a radiation emission test setup. A white, rectangular test item is placed on a white, stepped platform. The platform is situated on a circular turntable. The background consists of white, cross-shaped absorbers mounted on a wall. A large, white, curved structure is visible on the right side. The floor is covered with black, conical absorbers.
Radiation Emission Test Setup (Above18GHz)	 A photograph of a radiation emission test setup for frequencies above 18GHz. The test item is on the same white platform and turntable as in the previous image. The background absorbers are the same. A blue cable is connected to the test item, and a yellow probe is visible on the right side. The floor is covered with black, conical absorbers.
