<p>EN</p> <p>1- Insert the SIM and memory card</p> <ol style="list-style-type: none"> Open the SIM tray and push the tray into the slot to the left of the SIM card slot. If you have a SIM and a SIM card, please insert the second SIM card into the SIM tray and the second SIM card into the SIM slot. <p>2- Charge the battery and switch the phone on</p> <p>Plug a compatible charger into wall outlet, and then connect the charger to the phone. You should charge the phone for at least 2 hours. Please charge the phone with the data cable, but may charge the phone with the power cable.</p> <p>If the battery is completely discharged, it may take about 10 minutes before the charging begins.</p> <p>To switch your phone on, press and hold the power button for 2-3 seconds. Please do not press the power button through the data cable.</p> <p>3- Use the SIM and memory card</p> <p>Use only original SIM/Micro-SIM cards. Use of incompatible SIM/Micro-SIM cards may damage the SIM slot, and may cause data stored on the card.</p> <p>Use only compatible memory cards approved for use with the device. Use of incompatible memory cards may damage the device and corrupt data stored on the card.</p> <p>Important:</p> <p>Do not insert the memory card when an app is using it, this may damage the memory card, the device, and corrupt data stored on the card.</p> <p>Both SIM cards are available at the same time when using the SIM tray. Please do not use the SIM tray to activate, for example, making a call, the other may be unavailable.</p>	 <p>2- Charge the battery and switch the phone on</p> <p>Plug a compatible charger into wall outlet, and then connect the charger to the phone. Please do not use the SIM tray to activate, for example, making a call, the other may be unavailable.</p>	<p>3- FCC Precautions</p> <p>Regulatory Compliance</p> <p>This device complies with Part 15 of the FCC rules. Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>4- Modifications</p> <p>Any changes or modifications not expressly approved by the manufacturer may void the user's authority to operate the equipment.</p> <p>5- User Information</p> <p>The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. FCC ID: 2AB9A-U1PHONE. These limits are designed to provide reasonable protection against harmful interference in a residential installation.</p> <p>6- Corrective Measures</p> <p>If this equipment does cause harmful interference to radio communications, which is determined by turning the equipment off and on, the user is encouraged to try the following corrective measures in order to eliminate the interference:</p> <ol style="list-style-type: none"> Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. <p>7- Specific Absorption Rate (SAR) Information</p> <p>The cell phone meets government requirements for exposure to radio waves. The SAR value for this device is 0.55 W/kg. SAR values are determined at the highest power level and the highest SAR value was determined during testing at the 10 cm reference distance.</p> <p>8- SAR Limit</p> <p>The US FCC SAR limit is 1.6 W/kg averaged over one gram of tissue. The device type FCC ID: 2AB9A-U1PHONE. These limits are designed to provide reasonable protection against harmful interference in a residential installation.</p> <p>9- Body Use</p> <p>To comply with RF exposure requirements, a minimum separation distance of 15 mm must be maintained between the user's body and the device. Use of a belt clip or similar accessories that may contain metallic components, such as a metal clip, metal plate, metal fastener, and metal frame, may not be sufficient to protect the user from RF exposure requirements and should be avoided.</p>	<p>Powered by Android™</p> <p>Android is a trademark of Google LLC.</p>
