Accessories package: manual x1, DC cable x1, remote control x1		

## ▲ WARNING

**FALL and STRANGULATION HAZARDS:** Infants have suffered head injuries falling from swings and have strangled in straps.

- ALWAYS use restraints. Adjust to fit snugly.
- STOP using product when infant attempts to climb out (approximately 9 months).
- Stay near and watch baby during use. This product is not safe for sleep or unsupervised use. If baby falls asleep, remove baby as soon as possible and place baby on a firm, flat sleep surface such as a crib or bassinet.
- ALWAYS place swing on floor. Never use on any elevated surface.

**SUFFOCATION HAZARDS:** Young infants have limited head and neck control. If the seat is too upright, infant's head can drop forward and compress the airway.

- ALWAYS keep swing seat fully reclined until infant is at least 4 months old AND can hold up head without help.
- Never leave the child unattended.

Stop using the product when the child starts trying to sit up.

Never use this product on an elevated surface (e.g. a table).

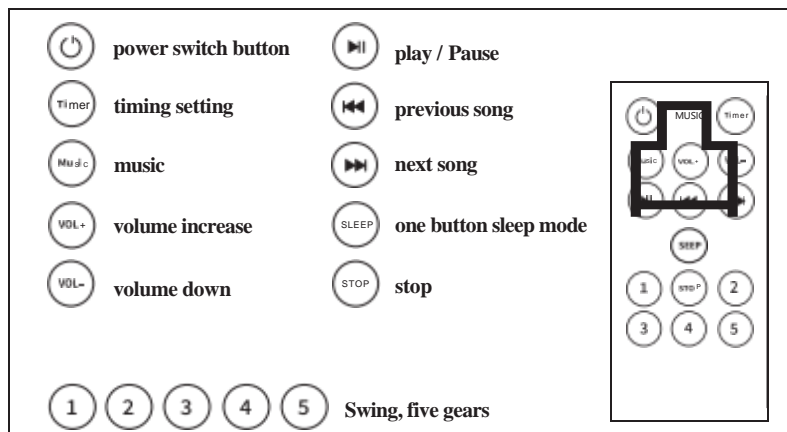

Always use the restraint system.

Never use the toy bar to carry the product.

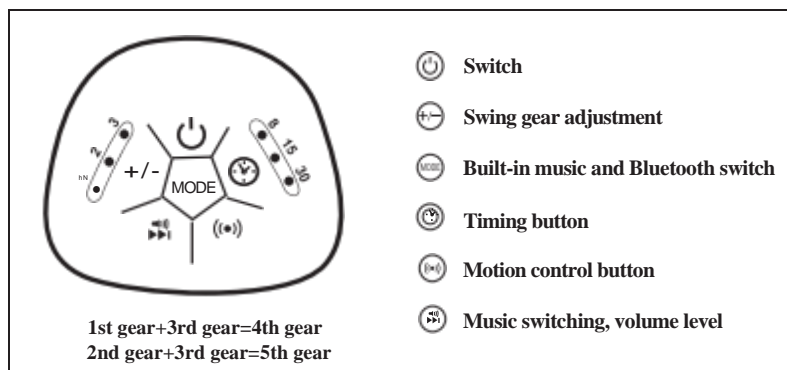

Do not move or lift this product with the baby inside it.

When the product is connected to a music player, ensure that the volume of the music player is set to a low value.

## Remote Control Instructions

### FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

(/\\) If the rocking chair shakes badly, please check if the machine is placed on the flat.
