Thank you for purchasing this Page-Turner.
We developed this page flipper mainly to make it easier for you to read eBooks.
We usually use various e-readers (Kindle, Kobo, mobile phones, Tablets).
When reading for a long time, you must keep turning the pages with your hands, which can cause your hands to be fatigued.
With this product, you can relax and even put your hands under the blanket to read in winter.
The page-turner doesn't need to be connected to Bluetooth, just press the controller directly and you can switch to the next page freely.
After using it, you will surely fall deeply in love with it, it supports all capacitive touch screens.
If you have any problem using it, please don't hesitate to contact us directly, we will be online 24 hours to help you.
Once again, we express our gratitude to you.

⑧

Q&A

Q1: What should I do if it doesn't work?

a. Make sure the screen sensor clip on the Kindle is in a suitable position. (Pg-7)
b. Make sure the remote controller and screen sensor clip are powered.
c.Repair and make sure the pairing is successful. (Pg5)
d.Some Kindle models are not compatible with page-turners. Please get in touch with us, or No, I can't scroll on TikTok.

Q2: Can it be used to scroll on TikTok?

a. This clip fits most Kindle cases. For Kindles with cases thicker than 20mm, please remove the case before using the page turner.

Q3: Does the Kindle case have to be removed before using the product?

a. Adjust the position of the screen sensor clip.
b. Adjust the margins of the Kindle screen.

Q4: What should I do if the screen sensor clip blocks the words?

a. If the page-turner has not been used for 30 minutes, it will turn off automatically and need to be repaired to work.

Q5: How long does it take for the page turner to turn off automatically?

a. Press the button on the screen sensor clip, if it blinks red, it means it's out of power and needs to be recharged.
So does the remote controller.

Q6: How to check if the power of the page turner is low?

1. After long-term storage, please charge the product before using it.
2. Non-waterproof, please don't use in extremely cold, hot, or humid environments.
3. Avoid using the receiver sensor clip roughly to avoid breaking them.

FCC Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.
NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
RF exposure:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
RED Canada Statement:
This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license exempt RSS(s). Operation is subject to the following two conditions:
1) this device may not cause interference and
2) this device must accept any interference, including interference that may cause undesired operation of the device.

⑩

Radiation Exposure: This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment to maintain compliance with IC's RF exposure guidelines. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
Déclaration du Canada:
Ce dispositif respecte les RSS émetteur (s)/récepteur (s) exempté (s) de licence qui respecte l'innovation, Science et développement économique Canada a exempté le ou les RSS de licence. L'exploitation est soumise aux éaves conditions suivantes:
1) cet appareil ne doit pas causer d'interférences et
2) ce dispositif doit accepter toute interférence pouvant entraîner un fonctionnement indésirable du dispositif.
Exposition au rayonnement: cet équipement est conforme au rayonnement Canada
Les limites d'exposition établies pour un environnement non contrôlé afin de maintenir la conformité avec les lignes directrices d'exposition aux RF d'IC. Ce dispositif et ses antennes ne doivent pas être co-localisés ni fonctionner en conjonction avec une autre antenne ou un autre émetteur.
