

Manual

I. Introduction

This product offers several times more functions than other similar products. In addition to the adult erotic features of other similar products, it also includes the following:

- Sleep Aid
- Assist in Sex Dreams
- Aid in Lucid Dream Awareness and Astral Projection (for those familiar with lucid dreaming)
- Vibrating Wake-up Alarm
- Daytime Assistance in Mindfulness Meditation
- Automatic Vibration Massage for Maintaining the Corpora Cavernosa and Prostate (mainly for men, especially sedentary drivers)

Note:

- This product provides two apps, one focusing on adult erotic features and the other on extended features.
- You must use an Android phone to use the extended features of this product. Apple phone users can only use the adult erotic features .

II. App Installation

To use the functions described in this manual, please scan the QR code below with a browser to install the "Lucidreamer" app.

III. Settings

After installation, you also need to make two settings:

- Enter the authorization code information on the packaging label into the app.
- Set permissions for this app to ensure that the App can run for a long time without being killed by the system.

Please scan the QR code below with your phone's browser to view detailed setup instructions.

user manual

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged

to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
