

7in 177.8mm

5in 127mm

IN THE BOX:

- 1 x Type-C Cable
- 1 x Book Charger
- 1 x Fast Charge Wall Adapter

FUNCTIONS:

1. Type-C USB Recharging Port
2. Charging Area

SPECIFICATIONS:

- Input Specs: DC: 9V/2A
- Output Specs: 9V/1.67A output
- Wireless Power: 5W/10W/15W
- Wireless Charging Standard: Qi
- Without Built-in Battery
- Foreign Object Detection Function

TROUBLESHOOTING:

- Wireless charging is not supported by all devices. Please review your device's manual or search the internet to confirm that it supports wireless charging.
- The Book Charger does not have a built-in battery, it must be plugged into a power source to wirelessly charge a device.
- Cellphone cases can obstruct wireless charging. Test Steps 1 & 2 Charging With The Book Charger.
- For best performance, plug the Book Charger into a USB wall adapter with a 2 Amp or greater power output. If using a computer USB, note that a USB 2.0 port provides up to 0.5 Amps while a USB 3.0 provides up to 0.9 Amps.

CAUTION:

SAFETY WARNING

In order to prevent conditions that can lead to overheating, please make sure that the wireless charging pad surface is free of all metal objects at all times, such as coins or paper clips. In addition, before charging, please remove anything metallic attached to the back of the phone, such as battery cases, ring holders, or plates used for mounting to magnetic phone holders.

FCC WARNING:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
