Key Functions

Long press the power on/off button; Short press switch lights; Long press for 8 seconds to reset.

Short press Next/ Long press Volume- .

Short press Previous/Long press Volume+ .

How To Use

1. Turn on the audio power; Press and hold the power button, and the power indicator light will start flashing. Short press to switch lights.
2. **Wireless** connection: Open the phone's **Wireless** and scan for XKG-01, then click to pair and connect. When the connection is successful, the speaker will emit a beep and the power indicator light will remain on.
3. **Wireless** version 5.1, with a maximum receiving distance of 15 meters.
4. Turn on the microphone: press and hold the power button on the microphone. The microphone will be connected to the speaker automatically and the corresponding indicator on the speaker will be on.
5. Adjust sound effect: adjust the volume of the speaker and microphones and choose appropriate sound effects.
6. Play music: open a music app on your smart phone and play any music you like. The volume of the music can also be adjusted on your phone. Pressing and holding the vocal cut button can remove vocals from the song.

3

Note: After connecting to the phone once, **Wireless** has a memory function and can automatically connect back when turned on.

If **Wireless** connection is disconnected, **Wireless** disconnection can be set on the phone.

How to charge

1. When the battery level is low, the product will automatically shut down.
2. Use a DC5V charger and connect it to the speaker charging port for charging. The charging indicator light will turn red when charging, and will turn off when fully charged.
3. It takes about 3 hours for the speaker to fully charge. After fully charged, it can be used continuously for 3-5 hours.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
