PRODUCT PARTS

MESAILUP

IF REMOTE CONTROL

Power Cable*1

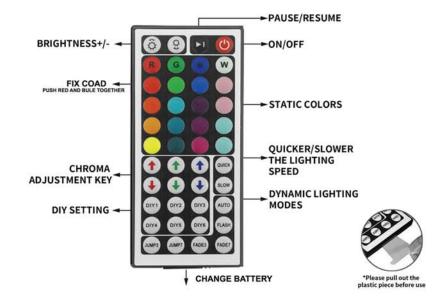

IF Remote Control *1

LED Liquor Bottle Display *1

ATTENTION

- Please take out the remote control and power supply after opening the package. And align the signal on the liquorbottle shelf when use.
- One remote control can control multiple LED bottle display stands at the same time. If you buy more shelf, you can use the fix coad to fix remote control and shelf one by one.
- The display can be exchanged for the internal light by yourself, but because the operation is too tedious, we do not recommend that you replace it by yourself.
- •Warning: Don't spray water directly on it.
- •Tip: If there is any remote control malfunction, there may be external magnetic interference caused, please disconnect the power to rest for 24 hours, and then restart.
- If you have any questions please feel free to contact us, we will definitely give you a satisfactory answer! (shtianyuan618@outlook.com)

Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- --Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver
- --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- --Consult the dealer or an experienced radio/TV technician for help

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

RF exposure:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
