hTC Wireless Earphones 33

Product Specifications
Model: HTC NE33
Bluetooth
Range: <10 m
Version: 6.0
Speaker
Diameter: 16.2 mm
Impedance: 16 Ω
Earphone power
Input: 5 V=55 mA
Battery capacity: 55 mAh
Battery life: <6.5 hrs
Charging time: <1.5 hrs
Charging case power
Input: 5 V=400 mA
Battery capacity: 500 mAh
Battery charging: 400mAh
Charging time: <1.5 hrs
Earphone recharges: 3 charges (when case is fully charged)

Quick Start Guide HTC NE33

Power on and off

Power on
Opening the charging case will automatically turn on the earphones.
To manually turn on each earphone, press and hold the touchpad for three seconds.

Power off
Placing the earphones in the charging case and closing the case will automatically turn them off.
To manually turn off each earphone, press and hold the touchpad for five seconds.

Note: If the earphones are not paired with a Bluetooth device within three minutes after powering on, they will automatically power off. They will also power off after three minutes if the paired Bluetooth device moves out of the effective connection range and has not reconnected.

How to reset the earphones

If the earphones fail to pair or reconnect to each other, reset them by tapping both earphones five times simultaneously. Note: Resetting the earphones will clear the Bluetooth pairing history.

Camera

Make sure your earphones are connected to your phone.

Tap (C) to open the phone's camera app and then press the multifunction button to take photos. This feature only works with the pre-installed camera app and may not be supported on all phone models.

AI Voice

Tap (O) to activate your phone's voice assistant.

Game

Tap (G) to activate your phone's game mode.

Birds

Tap the screen to navigate the bird through the obstacles.

FCC ID: 2BHR-JR-NE33

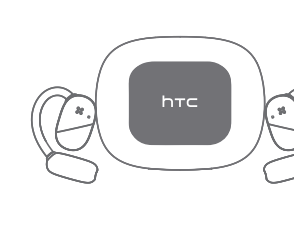

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Take out and pair the earphones

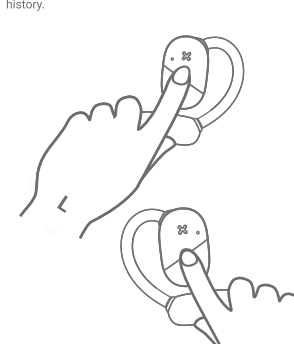

If you're using the earphones for the first time, remove both from the charging case. The LED on one earphone will blink orange and white alternately, indicating that it is in pairing mode.

Note:

- If the earphones have not been paired with each other, they will automatically enter pairing mode when turned on. You'll hear two beeps when pairing is successful.
- If the earphones have been paired before, they will automatically reconnect to each other when turned on. You'll hear a beep when they connect.

How to reset the earphones

If the earphones fail to pair or reconnect to each other, reset them by tapping both earphones five times simultaneously. Note: Resetting the earphones will clear the Bluetooth pairing history.

Headphone Light

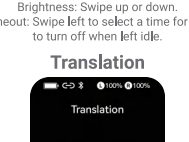

Tap (H) to show or to hide the light.

Brightness

Screen timeout. Swipe left to select a time for the screen to turn off when left alone.

Translation

Displays standard content synchronized with the connected app.

Earbud Night Running Light

Thank you for choosing our product. If you encountered any issues or experienced something unsatisfactory during the shipping process, please don't leave a negative review. Instead, reach out to us at 7@hifi-earphone.com. We'd love to help and make it right for you.

Helpful reminders when charging

1. Incorrect use may deform the ear hooks, potentially causing charging issues. If this happens, gently adjust the ear hooks to ensure the earphones fit securely in the charging case.

Charging bin ejector

Charging contacts

2. Dust or oxidation on the charging contacts or bin ejectors may result in charging issues. Make sure to keep the charging contacts and bin ejectors clean by gently wiping them with rubbing alcohol to ensure normal charging.
