1. On/Off switch
2. Battery compartment
3. Left and right click
4. Scroll wheel
5. DPI
6. Forward and back

INSTALLATION INSTRUCTIONS

Take the dongle out from the compartment. Insert the dongle into a USB-A port of your computer. Note: This dongle will work with both keyboard and mouse.

NOTE

You will need to purchase a USB-C to USB-A HUB if you are using a desktop or laptop that is equipped with only USB-C ports

RESYNCING THE DONGLE

If the keyboard and mouse lost its sync or if a replacement dongle is needed.

Keyboard

1. Put the battery in the keyboard then turn it on.
2. Hold the ESC key and the Q key simultaneously.
3. When pairing all three LED lights will flash.
4. After it stops flashing it should work. If it fails please try the previous steps again.

Mouse

1. Put the battery into the mouse
2. Hold the scroll wheel and the right button.
3. Put the battery into the mouse and then turn it on.
4. 3 LED lights will be flashing.
5. The mouse should work again. If not please try again.

Keyboard	2x AAA battery (included)

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
