# 39ER(B)
User Manual

Notice

● Thank you for purchasing your new iTable3 smart tabletop component.

● Please take time to read and understand this instruction user manual carefully.

● Please keep your user manual in good condition for future reference.

● Avoid leaving the unit unattended when the power is on. When the product is in standby mode, remove any device from the iTable3 and disconnect the power supply.

● Do not operate this unit if the power supply or plug is damaged.

● If your iTable3 is damaged or immersed in water, safely disconnect the power supply immediately and contact customer service.

● Do not operate the cup holder with excessive weight load.

● Do not insert/put anything into exposed openings of this product.

● This product is designed for indoor use only. Avoid sun exposure, moisture and extreme temperature.

● Do not attempt to replace parts on this electronic product. Opening or removing any part may result in potential electric shock or injury.

● If you have any medical conditions, pacemaker, or you are vulnerable to electronic interference, consider a consultation with your doctor before using the iTable3.

● If you lack relevant experience or understanding of this product, use this product under supervision and guidance.

● Children should use this product under adult supervision.

● If the power cables are damaged, they must be replaced by the manufacturer or experienced Service technician. Tampering with the product could cause harm and void any warranty claims.

● Please refer to the Troubleshooting section this user manual for solutions to common issues. Contact customer service immediately for repair. Do not disassemble or attempt to repair anything not listed within the troubleshooting section of this user manual.

RF exposure statement

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Warning
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
