

Attention:
Application Examiner

Re: Request for confidentiality

Applicant: STAT Health Informatics, Inc. DBA Lumia Health

FCC ID: 2BHMV-L10824

To whom it may concern,

Request is hereby submitted by STAT Health Informatics, Inc. DBA Lumia Health to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Block Diagrams
- Operational Description
- Internal photos

Rationale for request for confidentiality:

STAT Health Informatics, Inc. DBA Lumia Health has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

The circuit board and internal components are not normally accessible to users. The circuit board is covered in two types of epoxy, and the plastics surrounding the circuit boards are glued shut with epoxy. The circuit board is damaged if users attempt to open it. The internal circuit board is made to be not accessible to users.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Daniel Keewoong Lee
Chief Executive Officer
STAT Health Informatics, Inc. DBA Lumia Health
