

WM-MCW31-BK

Car charger

Product Usage Guide

Thank you for purchasing and using this 3-in-1 wireless charging product! This is a three in one wireless charging stand for cars, which can simultaneously charge three devices including mobile phones, headphones, and Apple watches wirelessly, bidding farewell to wired constraints and enabling a wireless experience. In order to provide you with a better user experience, please carefully read this manual before using this product and keep it properly for future reference.

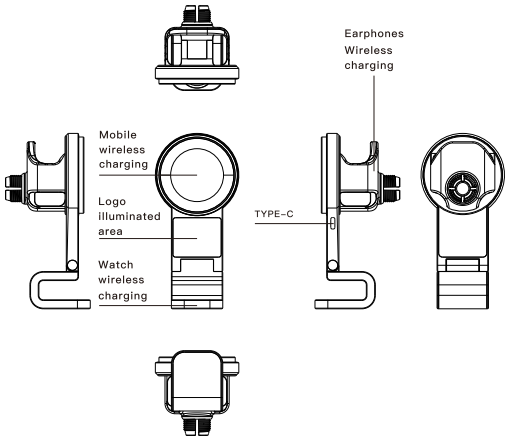

Basic product parameters

Product Name	Car charger
Product model	WM-MCW31-BK
Product model	136.6MM*65MM*66MM
Effective distance	≤8mm
Input voltage	DC 9V/12V 3A(MAX)
Material Science	ABS+PC
Output power	15W/2.5W/3.5W
Charging frequency	115KHZ-325KHZ
Charging interface	TYPE-C
Packaging List	3-in-1 wireless charging*1
	Car air outlet clip*1
	Manual*1, Data line*1

Product Instructions

1. When using, connect the 3-in-1 wireless charging device to the compatible power and data cable.
2. After each power connection, this wireless charging device will return to its initial state.
3. This product achieves short-range wireless power transmission through magnetic induction, and meets the Qi standardElectronic devices that meet the protocol can be charged using this wireless charging device.When devices such as mobile phones/headphones/Apple watches need to be charged, they can be placed in the corresponding position on our product panel to achieve wireless charging (devices such as mobile phones/head phones/Apple watches themselves need to support wireless charging).

Product appearance

Product precautions

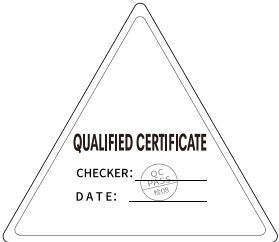

1. It is recommended to pair it with a 5V or 9V QC3.0 fast charging plug for better charging performance.
2. This product supports QC and PD protocols.
3. The lower the temperature, the faster the charging speed, and the charging speed is faster in winter than in summer.
4. Please do not charge in hot and humid environments to avoid damaging the circuit and causing danger.
5. Please keep it away from children to avoid unnecessary accidents.

Dear User:

Thank you for purchasing this product. To ensure reliable after-sales service, please carefully read the following instructions: The products guaranteed by this certificate are sold by our company or designated distributors. The products registered in this certificate must be truthfully and completely filled in. Otherwise, it will be considered invalid as a three guarantee certificate. The production batch number registered in the product information must be consistent with the actual batch number of the product. This certificate is the primary proof of three guarantee services. Please keep it properly and do not make up for lost products. When customers need technical support services, please present this certificate, and we will provide you with high-quality and professional services according to regulations.

Thank You For Using This Product

FCC Warning Statement

This device complies with part 18 of the FCC Rules. This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device may cause interference to radio equipment and should not be installed near equipment with a working frequency range of 110kHz to 400kHz. The wireless charger may interfere with nearby devices such as pacemakers , hearing aids, and other radio-sensitive equipment. Maintain a safe distance (at least 20 cm) from such devices. Do not use the wireless charger in aircraft, hospitals, or other environments where radio frequency interference may be critical. Changes or modifications not approved by the party responsible for compliance could void the user ' s authority to operate the equipment.
