Statement

Product: BTA65 series Bluetooth Module

HVIN: BTA65CI, BTA65AI, BTA65BI, BTA65DI, BTA65TI

Trade Name: USE

FCC ID: 2BHQU-BTA65

IC: 28613-BTA65

We (USE Inc.) promise that the five Bluetooth modules of model BTA65AI, BTA65BI, BTA65CI, BTA65DI, and BTA65TI only have minor differences in internal memory size and marking description tiny change on chip. The marking description tiny change on chip is to distinguish customers and product types. The differences details are as follows. There is no difference in RF performance and hardware including pin assignment among these five Bluetooth modules.

BTA65AI: marking description on chip is AB1565, internal memory size is 32Mbit

BTA65BI: marking description on chip is AB1565A, internal memory size is 32Mbit

BTA65CI: marking description on chip is AB1565M, internal memory size is 64Mbit

BTA65DI: marking description on chip is AB1565AM, internal memory size is 64Mbit

BTA65TI: marking description on chip is AB1565D, internal memory size is 32Mbit

Note: These chips(AB1565, AB1565A, AB1565M, AB1565AM, AB1565D) has the same package, belong to pin to pin compatible.
