

Bluetooth headphones Manual

Using Wired Mode

► A 3.5mm (1/8) audio cable is included. This cable is used to connect the headphones to media. When the cable is inserted, Bluetooth will be terminated and the power will be turned off. To restart Bluetooth, unplug the cable and restart the headphones.

Features

- Foldable Design: The elegant curved shape and folding design saves space and can easily be put into a bag.
- Hi-Fi Deep Bass: Equipped with upgraded Bluetooth, it faithfully reproduces the original sound.
- Energy saving and low consumption: With a flat rate of 0.15W, innovative low consumption technology supports full day use.
- Soft and comfortable ear pads: Made of high-quality materials, they reduce the feeling of pressure and exude a sense of luxury.
- Other:
 - (1) Built-in microphone and can make calls in Bluetooth mode.
 - (2) Aux-in cable is included, so you can enjoy it wired without having to charge it.
 - (3) The Aux-in cable comes with a microphone, so you can have voice chat even in wired mode, which is great for language study.
 - (4) Energy saving mode: The power will automatically turn off after 5 minutes while waiting for pairing.

Charging Tips

- The headphones have a built-in rechargeable lithium-ion battery. Please fully charge for 3 hours before first use.
- Normally it takes about 2 hours to fully charge.

Bluetooth pairing

- Turn on "Bluetooth" on the device you want to connect to. Then, turn on the headphones to enter Bluetooth mode, and select "BT06C" when it appears in the device search results.
- ※ The Bluetooth display name may vary depending on the device.
- ※ Please refer to the following explanation for detailed connection instructions.

Package Contents

- Headphone*1
- Charging cable*1
- Aux-in Audio Cable*1
- Manual*1

Button Description

① 「M」 Button	⑤ Power ON/OFF

④ Short press: Volume -	⑨ AUX-in socket
Long press: Previous song	

LED status

- Waiting for pairing: The light flashes blue and red alternately
- Paired: Blue light flashes slowly
- Charging: Red light on
- Fully charged: Blue light on

Main Specifications

- Bluetooth version: V5.0
- Protocol: A2DP AVRCP HFP SPP AVDTP AVCTP SMP ATT GAP GATT RFCOMM SDP 2CAP
- Unit: 40mm
- Impedance: 32Ω
- Sensitivity: 112±3db
- Frequency response: 20 Hz ~ 20,000 Hz
- Frequency range: 2.402 GHz ~ 2.480 GHz
- Transmission range: About 10 meters
- Continuous use time: About 9 hours (LED light off)
- Standby: About 250 hours
- Charging voltage: 5V/1A
- Charging time: About 2 hours
- Weight: About 160 g
- Battery capacity: Lithium-ion battery (3.7V/400mAh)
- AUX-in : Support

Detailed pairing instructions

Detailed Bluetooth connection instructions

- Check your connection environment. We recommend checking this on your smartphone.
- 1. Make sure there are no other Bluetooth devices within 10 meters other than the connected device.
- 2. Make sure the cable is not inserted into the headphones.
- 3. Make sure the device is not connected to any other Bluetooth devices.

How to connect (first time):

1. Turn off Bluetooth on your smartphone.
2. Turn the power of the headphones on.
3. After about 1.5 seconds, you will hear a voice prompt saying [Bluetooth mode] (connecting), then turn Bluetooth on your smartphone on.
4. When the headphones' Bluetooth [BT06C] (the display name may be different depending on the device) is displayed, select it.

*For iPhones, it will be displayed in the "Other devices" list.

5. Connection complete.

*The pairing method is the same for Bluetooth-enabled TVs, computers, etc.

Tips (Pairing)

► TV

1. The TV's communication method must be Bluetooth (mainly Bluetooth, wireless communication method, infrared method).
2. There must be no other Bluetooth devices within 10 meters other than the connected TV (Bluetooth on smartphones, etc. must be turned off).
3. For TVs that do not support Bluetooth, a transmitter and Bluetooth receiver are required.

► PC

Depending on the model of PC, audio input (microphone cannot be used) may not be possible.

→ Solution 1: Install the driver.

- * Recommended Bluetooth driver: BlueSoleil (free), others: Search for "Bluetooth driver downloads"
- Download the driver that matches your computer's system and install it;
- Open your computer's "Control Panel" and click "Voice Recognition" ... Continue until the setup is complete.

→ Solution 2: You can use it as a wired connection by inserting the included audio cable into the [Audio Input] hole.

→ Solution 3: If your TV does not support Bluetooth, you can insert an attachable transmitter or Bluetooth receiver into the audio output terminal of your TV.

Notes on use

- Please do not perform any other operations during Bluetooth search, as this may cause system errors depending on the device.
- When using the product, please adjust the volume to an appropriate level to protect your hearing.
- If it has not been used for a long time, please fully charge it before use.
- Do not drop or hit the headphones or subject them to strong shocks, as this may cause them to break.
- Do not disassemble or open the transmitter or headphones as this will void the warranty.
- Please charge using an approved charger.
- Do not place in direct sunlight or near a heater or other extremely hot locations.
- Do not place in dusty locations.
- Do not place in humid locations.

Warranty Information

This product comes with a warranty. If you have any questions or experience any problems or malfunctions during use, please contact the seller.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
