

Note:

- 1.The built-in battery is non-removable. Do not attempt to disassemble or replace it yourself. Replacement must be done by authorized technicians.
- 2.Battery operating temperature range is 0 – 45°C. Please charge the battery strictly according to the instructions.
- 3.Dispose of used batteries in accordance with local laws and regulations.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1)This device may not cause harmful interference, and
(2)This device must accept any interference received,including interference that may cause undesired operation.

This equipment has been tested and meets applicable limits for radiofrequency(RF)exposure. SAR limits depend on whether this equipment is used against the head or on the wrist. The FCC SAR limit for extremity SAR is 4.0W/kg (10g) and Body SAR is 1.6W/kg (1g). The highest SAR value reported under this standard during product certification when properly limb worn (0mm) on the extremity SAR is 1.57 w/kg.

This product does not support fast charging.

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your phone near your ear while the loudspeaker is in use.

EU Conformity Statement

Hereby, DanuTech Europe Kft. declares that the radio equipment type iFLYTEK AINOTE 2 is in compliance with Directive 2014/53/EU.

RF Exposure Information

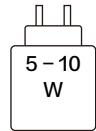

This device has been tested and meets applicable limits for Radio Frequency (RF) exposure.

Power

Bluetooth	2402 - 2480 MHz	8dBm
Bluetooth LE	2402 - 2480 MHz	10dBm
WLAN	2412 - 2472MHz	18.5dBm
WLAN	5180-5240MHz	14.5dBm
WLAN	5260-5320MHz	14.5dBm
WLAN	5500-5700MHz	15.5dBm
WLAN	5745-5825MHz	15.5dBm

The device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range.
