How to set timer

You can set the built-in sleep timer 60 or 120 minutes.
Once enabled, the Snoozeband will power down automatically as you drift off to dreamland.

1. Double press the ☁ button to set the timer to 60 minutes, double press again for 120 minutes.

2. The corresponding voice prompt will remind you of the timer set.

NOTE: In Bluetooth mode, if there's no device connected, the timer will not work. In white noise mode, the timer will always work.

How to use white noise

It comes with 10 soothing sleep sounds, including Ocean waves, White noise, Pink noise, Brown noise etc.

1. Double press the – button to enter the White noise mode

2. Short press the middle button to play/pause music
Long press the + and – button to switch between tracks
Slowly press the + and – button to adjust volume

NOTE: At anytime you can switch between the bluetooth and White noise mode by double pressing the – button.
In White noise mode, the bluetooth will be disconnected

Washing the SnoozeBand

1. Carefully remove the electric components of the Snoozeband before washing by opening the velcro in the bottom

2. Handwash with cold water and air-dry

Precautions

* DO NOT expose the product to liquids or moisture

Turning On/Off

Press and hold for 3 seconds

Pairing with your device

1. Turn on Bluetooth
2. Turn on the SnoozeBand > 3 s
3. Connect to Snoozeband MAX on your device

A blue and red light will flash while attempting to pair the Snoozeband with your device. Once paired, the light will stop.
If you want to pair it with a new device next time, make sure it's disconnected from the previously paired device.

Charging

The USBC charging port is located on the top of the front control box.

1. Plug the USBC charging cable into the charging port and the other end into a power source with ~5V (e.g. phone charger)

2. The LED light will turn red whilst charging. It will turn blue as soon as the battery is fully charged (approx. 1-2 hours).
Please do not charge longer than 2 hrs to preserve battery life.

LED Indicators

Status	Indicator
Bluetooth pairing mode	Flashing red/blue lights
Charging	Solid red light
Charging complete	Solid blue light

Troubleshooting

Problem	Solution
Snoozeband won't turn on	Make sure the SnoozeBand is charged
It won't connect to my device	Make sure Bluetooth is enabled and Snoozeband is within 15m of your device
The earphones do not align with my ears	Gently move the speakers to the right position so they sit over your ears
