Before the start
Search HUNTVISION APP from App Store(iOS) or Google play(android) to download and install.

HUNTVISION App

Google Play | App Store

In order to ensure a smoother video experience on your smart-phone, it is recommended that your smart-phone meets the following specifications:

- IOS system: version 11 or higher.
- Android: 5.0 or higher, using a device with a graphics processing unit (GPU),

NOTE: For the best experience, please update the APP to the latest version!

4. APP connection

1.After installation and power up, wait for a few seconds before the camera makes a beeping sound.

2.Make sure your smartphone is connected to the WiFi network

（Tip: If your WiFi router is dual-band, you need to connect to a 2.4GHz network-most newer routers have both 2.4GHz and 5GHz channels. For example, select SSID: xxxxx_2.4G.If you don't need a computer to view videos, you don't need to connect a network cable. Currently, this function remains unavailable.）

3. Open HUNTVISION app and register an account, or log in (if you already have an account).
