

一、Product use steps:

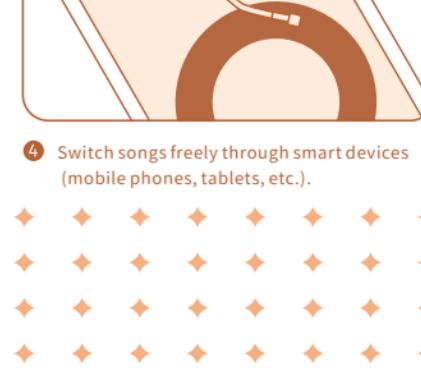

① Press the power switch button to turn on the audio lighting picture.

② Connect wireless Bluetooth "Airboo" with smart devices (mobile phones, tablets, etc.) for Bluetooth pairing.

③ Hearing the prompt tone "Ding Dong" indicates that the connection is successful, and there is no prompt sound effect when the connection is disconnected (connection distance: it can work normally within 10 m)

④ Switch songs freely through smart devices (mobile phones, tablets, etc.).

⑤ Turn off the power switch button, and the picture light will be turned off automatically.

二、Product introduction:

① Functions and parameters: Bluetooth module, input voltage: 5V, input current: 2A, Power amplifier module power: 3W. Bluetooth Version: 5.0 Support: A2DP/AVDTP/AVRCP/RFCOMM/HEFP/HSP/SPP/HID.

② Bluetooth application parameters: Sound parameters: 3 W, 42 cavity sound high fidelity, no noise.

③ Main features: the use of wireless Bluetooth connection, amplifier function two-in-one, can be used when connected to the power supply, mall size and large use.

④ Sound quality performance: With advanced audio technology and driver unit, it can provide clear and balanced audio performance with excellent bass response and treble detail.

⑤ Portability: compact size, light weight, easy to carry, convenient for users to enjoy music and lighting at any time indoors and outdoors. At the same time, the lighting can enhance the environmental atmosphere and lighting effect, and at the same time, they can enjoy the aesthetic feeling brought by the sound lighting painting. Three functions in one for portability.

三、Precautions:

- ◆ Do not modify the product yourself.
- ◆ Do not knock or hit the main machine to avoid damage
- ◆ Do not approach the strong magnetic field and electric field
- ◆ Keep away from sources of ignition or heating appliance
- ◆ Keep away from wet environment
- ◆ It is recommended to use plugs of 2A or higher for all product specifications
- ◆ Charge the wireless version for 4 hours before use

This device complies with part 15 of the FCC Rules, Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
