Solder Board-Component View 4	 A photograph of a small, square, green printed circuit board (PCB) component mounted on a gold-colored metal carrier. The component is positioned on a blue textured surface. A black L-shaped ruler with white markings is placed next to it for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is centered on the ruler, with its top edge aligned with the 10 mm mark and its right edge aligned with the 40 mm mark.
Solder Board-Component View 5	 A photograph of the same PCB component from a different angle, showing the underside. The component is mounted on a gold-colored metal carrier. The underside of the PCB is visible, showing various electronic components and traces. A black L-shaped ruler with white markings is placed next to it for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is centered on the ruler, with its top edge aligned with the 10 mm mark and its right edge aligned with the 40 mm mark. The text "3.0V LDD" is visible on the right side of the component.
